

# PRESS RELEASE

## SOCIAL ENGAGEMENT

January 2026

## Review: Greater safety through targeted donations

Commitment of the non-profit Family Rauch Foundation

- **The non-profit Family Rauch Foundation of the Bavarian-based mechanical engineering company MAHA continued its regional commitment with further targeted funding measures at the end of 2025 and the beginning of 2026. The support was directed towards organisations whose voluntary work makes an indispensable contribution to safety in the region.**

**Imberg/Kempton, 23<sup>rd</sup> January 2026.** The Imberg Volunteer Fire Brigade has commissioned a new off-road vehicle. The tracked vehicle, specially converted for firefighting operations during mountain forest fires, significantly expands the brigade's operational capabilities, particularly in difficult-to-access terrain. The total cost amounted to around 58,000 euros, of which 53,000 euros was financed through donations. The non-profit Family Rauch Foundation made a substantial contribution of 20,000 euros, thereby strengthening local emergency response capabilities and enhancing the operational performance of the Imberg Volunteer Fire Brigade. The official handover of the donation took place in the presence of representatives of the participating emergency services.

### **5,000 euros for the Kempton Water Rescue Service**

The Kempton Water Rescue Service also received support. For the first time, the organisation now has a professional underwater drone equipped with a sonar system and a hydraulic gripper. The system enables fast and safe searches for missing persons, reconnaissance operations and the recovery of smaller objects. The acquisition costs of approximately 10,000 euros were covered equally, with half funded by the non-profit Family Rauch Foundation. The new technology is scheduled to be deployed from spring 2026 and will significantly expand the technical capabilities of the water rescue service, particularly during operations under challenging visibility and current conditions. At the same time, it helps to further improve the safety of the volunteer emergency responders.

### **12,000 euros for the Kempton Mountain Rescue Service**

In addition, the Family Rauch Foundation supported the Kempton Mountain Rescue Unit with a designated donation of 12,000 euros. The funds will be used to procure modern emergency medical equipment as well as protective and personal protective equipment for the rescue teams. Alongside the modernisation of medical equipment, the donation also supports training: currently, 15 trainees are being prepared for active rescue service. The funding makes an important contribution towards meeting the growing demands of alpine rescue operations.

## Personal handovers and a clear commitment to the region

All donations were personally handed over by Anton Klotz, Chairman of the non-profit Family Rauch Foundation and former District Administrator. 'The voluntary commitment of emergency services organisations is indispensable for our society. Through targeted investments in modern technology and reliable equipment, we aim to provide the best possible support to the volunteers and sustainably strengthen their valuable work,' Anton Klotz emphasised during the handovers. With its funding activities, the non-profit Family Rauch Foundation focuses its engagement on areas where people find themselves in need through no fault of their own.

Donation handover to the Imberg Volunteer Fire Brigade: From left: Anton Klotz (Chairman of the Board of Trustees of the non-profit Family Rauch Foundation and former District Administrator), Robert Denz (THW Sonthofen) and Ralf Jahnke (Imberg Volunteer Fire Brigade).

Presentation of the new underwater drone at the Kempten Water Rescue Service: From left: Max Schwaegerl, Anton Klotz (Family Rauch Foundation), Martin Kärgel, Luca Waldhoer (Board Member), Stefan Müller (Deputy District Managing Director, BRK) and Sabine Blodau (Deputy Chair of the Water Rescue Service).

Appreciation for the support of the Kempten Mountain Rescue Service: From left: Sven Goldhahn (Deputy Unit Leader), Niklas Seibt (Trainee), Melanie Negwer (Trainee), Julia Kittler (Trainee), Steffen Crispian (Deputy Unit Leader, Head of Emergency Medicine), Anton Klotz (Family Rauch Foundation), Stefan Müller (Deputy District Managing Director, BRK Oberallgaeu), Günther Walther (Treasurer) and Sebastian Kunkel (Unit Leader).

### **MAHA – an overview:**

MAHA SE & Co. KG is one of the world's leading manufacturers of vehicle testing and lifting technology. As an internationally oriented company, MAHA operates four production sites: two in Germany and one each in South Africa and the United States. With a global sales and service network spanning more than 150 countries, MAHA maintains a strong international presence and close proximity to its customers. The company employs over 1,000 people worldwide and generates annual revenues of approximately 150 million euros.
