

EMIDYNO

EMISSION DYNAMOMETER FOR CARS

- ◆ Transient emission testing for accurate analysis and measurement of emissions for vehicles under load (in conjunction with MAHA emission testers)
- ◆ Precise power measurement with manual input of ambient data for standard power projection
- ◆ Optimum reproducibility of results always guaranteed

- ◆ Graphic display of wheel power, drag power, standard engine power and torque
- ◆ Print-out in graphic and tabular form for accurate logged evaluation and analysis
- ◆ Discrete measurement using speed
- ◆ Tachometer testing with up to ten freely selectable test points
- ◆ Performance measurement possible with constant speed
- ◆ Performance measurement possible with constant tractive force
