

Dimension Sheet for Pit Jack and Support Systems

Pit Jack Model: Support system:
 Representative: Tel. No./Contact:
 Order No.: Date/Signature:

Pit Dimensions: All dimensions in mm!

Measure the pit at various spots. Please include sketches/photos if your pit deviates substantially from our pit sketch. We produce based on the smallest dimensions. If the difference in dimension B >10 mm, the parallelism must be compensated for by the customer. Dimension A shows the possible running surface of the rollers/support systems. (please pay attention to welding seams and the radius in the Profilee) Standard width dimensions for pit jacks and their support systems Dimensions B up to 1080 mm.

Hanging Jack Carriage

- adjustable (only up to 14.5 t) fixed dimensions S-carriage
 P-carriage Special carriage¹

Upper Pit Profilee

<input type="checkbox"/> L-Profile 	<input type="checkbox"/> L-Profile with wheel deflector
<input type="checkbox"/> U-Profile <input type="checkbox"/> I-Profile <input type="checkbox"/> IPB-Profile 	<input type="checkbox"/> U-Profile with wheel deflector <input type="checkbox"/> I-Profile with wheel deflector <input type="checkbox"/> IPB-Profile with wheel deflector

Lower Pit Profile

<input type="checkbox"/> L-Profile 	<input type="checkbox"/> U-Profile
--	--
