The mobile wheel engaging COLUMNLIFT RGE T, with extra wide universal lifting carriage for vehicles with tyre diameters of up to 2.0 m, lifts up to 5.0 t per column. Streamline column design offers a good overview when manoeuvring. The low-maintenance, electro-mechanical drive system ensures extremely smooth running while the excellent mechanical rigidity of the columns guarantees safety and the ability to function in any condition. A high-quality worm gear motor enables precision height positioning without overrun. Column communication is via connecting cable, the power supply via mains power.
