

# VEHICLE TESTING TECHNOLOGY SIDE-SLIP TESTER

**MINC II EURO**  
VP 420005

## MINC II EURO VP 420005

The side-slip tester MINC II EURO ensures that the axle geometry is inspected within seconds once the test vehicle passes over it (up to 15.0 t axle load) as well as a fully automatic evaluation of the deviation in m/km. The display of the measurement values is either analogue via dial or via transmission to a PC screen (including graphic display).

### PRODUCT DETAILS/ACCESSORIES

#### Description:

- Inspection of axle geometry in a matter of seconds upon drive-on
- Fully automatic analysis of variation in m/km
- In conjunction with EUROSYSYSTEM: display on PC screen with measurement visualisation and graphic representation
- In conjunction with LON brake testers: illustration of measurements on dial analogue displays
- Varnished with high-quality powder coating: anthracite grey, RAL 7016

#### Standard Delivery:

- Side Slip Tester MINC II EURO Floor Assembly
- Pre-configured for connection to EUROSYSYSTEM or LON test line
- Pre-configured for stand-alone use (requires MCD 2000 communication desk with electronics)

### TECHNICAL DATA

Axle load	15000 kg
Measurement range	+/- 20 m/km
Drive-over speed	5 - 7 km/h
Floor unit dimensions (H x W x L)	135 x 770 x 1020 mm

### ACCESSORIES

VP 186051 Communication Desk EUROSYSYSTEM Car/Truck (with electronics) Model: MCD 2000
