

SPECIFICATION

BMW

		EMISSION TESTER FOR PETROL ENGINES MODEL: MET 6.1 BMW	
Art.-No.	Qty	Description	Specifications-No.

VP 135119

1 Emission Tester for Petrol Engines

MODEL: MET 6.1 BMW

Special BMW Features:

- MET SERIES (VP 135117)
Emission Tester for Petrol
MODEL: MET 6.1
 - Basic device (gas analyser) in high-quality synthetic casing with integrated display unit and keypad
 - Steel mesh emission probe, 600 mm, probe tubing 8 m
 - LAN interface with LAN cable
 - Power supply unit 110V - 230V, 50/60Hz
 - Transparent drain hose for condensed water with collecting tank
 - Main filter, zero filter and condensate filter
 - Electrochemical O2 sensor
 - Trigger tongs for MET 6.1 and 6.3 for inductive RPM measurement at ignition cables
 - 2 replacement filters, 2 replacement seals
 - Measurement software for continuous measurement without country-specific test procedure
- PC/Test Lane Module for MET 6.1 for Germany (VZ 911353)
 - Software module AU emission testing procedure for Germany acc. to Guideline 5.01
 - MAHA VCI, W-LAN Stick
 - Fees for the Office of Weights and Measures acceptance
 - Additional options available: e.g. target information data bank, RPM sensor, oil temperature sensor
- CD-ROM with software target data for AU I, AU II emission testing procedure with OBD (VZ 911065)
- Calibration acc. to DIN 17025 "Vkl. 11/2018" for MET 6.1 (VM 995768)

SPECIFICATION

BMW

		EMISSION TESTER FOR PETROL ENGINES MODEL: MET 6.1 BMW	
Art.-No.	Qty	Description	Specifications-No.

Options:

VZ 990439	1	RPM - Vibration RPM Sensor MODEL: AVL DITEST SPEED 2000 RPM detection via vibration and noise combi sensor incl. cable to MAH emissions tester
VZ 994019	1	Mobility Kit for MET 6.x MAHA System case in MAHA design for mobile use of exhaust gas testers of MAHA MET series
