

SPECIFICATION

BMW

		EMISSION TESTER FOR DIESEL ENGINES MODEL: MET 6.2 BMW	
Art.-No.	Qty	Description	Specifications-No.

VP 135041

1 Emission Tester for Diesel Engines

MODEL: MET 6.2 BMW

Special BMW Features:

- MET SERIES (VP 135036)
Emission Tester for Diesel
MODEL: MET 6.2
Scope of delivery:
 - Basic device (opacimeter) opacity measurement device/
particle concentration measurement device in high-quality
synthetic casing with integrated display unit and keypad
 - Steel mesh emission probe, 600 mm, 2000 mm probe tubing
 - LAN interface with LAN cable
 - Power supply unit 110V - 230V, 50/60Hz
 - Main filter, zero filter and condensate filter
 - Transparent drain hose for condensed water with collecting tank
 - 2 replacement filters, 2 replacement seals
 - Measurement software for continuous measurement without
country-specific test procedure
- PC/Test Lane Module for MET 6.2 for Germany (VZ 911354)
 - Software module AU diesel emission testing
procedure for Germany acc. to Guideline 5.01
 - MAHA VCI, W-LAN Stick
 - Fees for the Office of Weights and Measures acceptance
 - Additional options available: e.g. target
information data bank, RPM sensor, oil temperature sensor
- CD-ROM with software target data for AU I, AU II emission testing procedure
with OBD (VZ 911065)
- Calibration acc. to DIN 17025 "Vkbl. 11/2018" for MET 6.2 (VM 995769)
